

MAY RUN A FARM

Topeka High School Figuring on Novel Plan.

Practical Course in Agriculture To Be Taught.

GOVERNMENT MAY AID IT

If Smith-Hughes Law Passes Cost Will Be Light.

I. C. Mohler Approves Professor McDonald's Ideas.

Topeka high school may be operating a 40 or 50-acre farm next spring if the investigations as to the practicability of the scheme are approved by W. M. McDonald, teacher of agriculture in the high school, prove favorable.

The present course in agriculture at the high school is merely a book course, lasting but one year. If the law is obtained it will mean the inauguration of a three, four years course in agriculture, graduates of which by reason of adequate theory and practical experience on the school farm, will be competent to undertake the management of a real farm.

"Topeka would only be following in the footsteps of a large number of other first class cities of the west in securing a school farm," Superintendent Wilson said today. "Many other western high schools have farms and they are proving a great success. They not only give the student practical experience but yield a profit on the investment. In Boise, Idaho, the work has been an unqualified success. There the practical work in agriculture during the summer, the farm being run entirely by the students under the direction of the instructor."

Federal Aid.

If the Smith-Hughes law, now before congress, granting federal aid for vocational and agricultural work in high schools pass, as it is expected to do at this session, the school courses in agriculture will not entail a very great additional expense to Topeka taxpayers. Under the proposed law the government will pay half the cost of instruction and equipment in vocational and agricultural courses.

The plan of a school farm was suggested by local real estate men some four years ago. At that time the real estate men proposed to secure and maintain the lease on a property for a school farm. But the slump in local real estate business, which occurred about that time, caused the plan to fall through.

Approved by Mohler.

The plan is enthusiastically approved by Jacob C. Mohler, secretary of the state department of agriculture and secretary of the agricultural committee of the Commercial club. "The plan is eminently practicable," Mohler asserts. "The time is coming when the majority of the larger high schools in the country, certainly in the west, will have school farms and complete agricultural courses."

At present there are about fifty students taking the purely elementary agricultural course which is now taught at the high school.

"I have no doubt that should the farm be secured that more than double the number of students would enroll in the course," A. J. Stout, principal of the high school, said today.

Professor McDonald's report and recommendations concerning the school farm will be presented to the school board at an early meeting.

CULLOR IS COMING

Topekan Charged With Murder of Sheriff Has Been Arrested.

An officer with Homer M. Cullor in charge is expected in Topeka some time tonight or tomorrow. Cullor has been arrested in Iowa and is in jail at Keokuk, charged with the murder of Walter Davis, former sheriff of Lyon county. It is thought he will be brought to Topeka from Iowa and placed in the county jail for safe keeping.

Cullor was arrested by the marshal of Keokuk, Iowa, when he called for a letter from his mother. When the Emporia officials were notified of the arrest they telegraphed to Hugh Larimer, undersheriff, asking him to secure a requisition for Cullor and meet them at the Santa Fe depot with it. Larimer secured the requisition from Governor Carpenter Sunday afternoon and Wallace Jones, the new sheriff of Lyon county, went on his way with it.

Earl Smith, arrested following the murder of Sheriff Davis, and brought to the Shawnee county jail for safe keeping, identified the picture of Cullor as that of the man he was with previous to the murder. He did not know Cullor by that name but recalled having seen "H. Cullor" punched upon a keying the man had once dropped.

Cullor formerly lived in Topeka. His divorced wife lives here now. They were divorced last March in the district court of Shawnee county; the wife charging abandonment and non-support. She claims not to have seen Cullor since last September. He is a telegraph operator and worked for the Santa Fe in several towns in Colorado and New Mexico.

LEAP FROM PRISON CAR

Three Convicts Escape Federal Officers on Train in Dakota.

Jamestown, N. D., Aug. 28.—Leaping from a federal prison car attached to Northern Pacific train No. 2, near Sartori, 30 miles east of here today, three alien convicts being sent from Seattle to New York for deportation, caught a westbound freight leaving Sartori and escaped.

STUCK HEAD IN OVEN

Des Moines Man Chose Gas Route to Kill Himself.

Des Moines, Ia., Aug. 28.—Charles Rhodes, 38, was found dead today with his head in the oven of a gas stove, with pillows stuffed tightly around his neck to prevent gas escaping from the oven.

A police verdict is awaited.

MEXICAN COMMISSIONERS SELECTED TO ADJUST WITH U. S. OUR DIFFERENCES

Above, left: Luis Cabrera and Alberto Pani. Below: Ignacio Bonillas.

The three men above have been appointed members of the commission that is to confer with the board of American commissioners and adjust the differences between the United States and Mexico. Cabrera is president of the delegation and secretary of finance and public credit. Alberto Pani is general manager of the Constitutional Railways of Mexico, and Bonillas is sub-secretary in charge of communications and public works.

BEE HIVE ON STILTS

Topekan Blames City for Inconveniences Caused by High Water.

Asserting that he had to build beehives on stilts and had lost fruit trees and chickens from floods on his land caused by paving on Kansas avenue, J. P. Lucas, Twenty-first and Kansas avenue, thru an attorney, this morning urged the city commissioners to allow a claim for \$225 in damages as a result of the floods. Walter Arnold, county engineer, also appeared before the commissioners to testify in behalf of Mr. Lucas. Commissioner Tandy believed the city was not liable and his report to the city commissioners probably will recommend the non-payment of the Lucas claim.

Lucas declares that since the street has been paved it has closed up drainage and that often he has been obliged to wade in water breast high, necessitating placing stilts under his beehives and causing the loss of fruit trees and chickens. Mr. Tandy doesn't believe "the water is caused by any fault of the city and declares it would have to run up hill to arrive at the Lucas property in the manner described by Lucas. It is up to the Santa Fe, Tandy believes, to build a culvert to care for the dammed water which Lucas claims floods his land.

40,000 LOST IN WEEK

Beck, Returned From Europe, Tells Total Losses in Somme Battle.

New York, Aug. 28.—French and British losses totalled 40,000 in killed and wounded during one week of the Somme offensive, according to James M. Beck, former assistant attorney general of the United States, who returned here today from London. Beck visited the allied armies in France.

DEATHS AND FUNERALS

C. J. DUCHUDEN.—Died at the home of his mother in Jamestown, N. Y., today. The funeral announcements will be made later. His Topeka residence was 1612 West Sixth avenue.

PANAMA PRESIDENT AIDING THE JAPS?

President Elect Valdes

The charge is made against President Elect Valdes of Panama that he was instrumental in securing a concession of 60,000 acres of land for one Fernandez, a Spaniard believed to be in the service of the Japanese government. The state department at Washington is making a searching investigation of the charge.

President Elect Valdes

The charge is made against President Elect Valdes of Panama that he was instrumental in securing a concession of 60,000 acres of land for one Fernandez, a Spaniard believed to be in the service of the Japanese government. The state department at Washington is making a searching investigation of the charge.

TO FIX UP PAVING

City Will Resurface 18 Blocks With Asphalt.

Worn Out Brick and Cobble Stone To Be Covered.

Eighteen blocks of worn out brick and cobble stone paving will be resurfaced with asphalt this fall, according to an announcement made today by Commissioner W. G. Tandy. Work on the improvements began this morning. The total cost of resurfacing is estimated at approximately \$4,000. The money comes from the commissioner's budget.

A year ago the city purchased an asphalt plant and the work of resurfacing will be done by its crew. The remainder will be handled by the Security Paving company.

The work must be done at once while the brick is dry and hot," said Commissioner Tandy. "In some instances we are repairing because the property owners are unable to meet special assessments for paving which is badly needed. The covering will average one inch in thickness."

Topeka probably has experimented as extensively in repaving with asphalt as any city in the state. Commissioner Tandy believes it has proven a success. The asphalt covering on the Main bridge was placed there six years ago. Following are the streets which will undergo resurfacing:

The Streets.
Huntton street from Western avenue to Fillmore street.
Tenth avenue from Harrison to Tenth street.

Seventh street from Kansas avenue to Topeka avenue.
Sixth avenue from Quincy street to the viaduct.

With the resurfacing completed and the viaduct and bridge open to traffic, this street will become the main thoroughfare to the East side, Commissioner Tandy believes.

Jefferson street from Fourth street to Sixth avenue. This street is all shot to pieces and before resurfacing can be done, it will be necessary to repair certain parts of the concrete base.

North Kansas avenue from Norris to Tenth street. The work on this street probably will be the last to receive attention.

Another announcement from the city engineer's office today is to the effect that work has begun on the laying of sixteen blocks of concrete sidewalks in various parts of the city. The work is done by the city and is charged to the benefited property owners.

BANDITS GOT \$4,000

Two Men in Auto Hold Up Standard Oil Collecting Wagon.

Detroit, Aug. 28.—Two automobile bandits held up a Standard Oil collecting wagon on the Reckner road near Dearborn, a Detroit suburb this afternoon.

A report to the police said the robbers obtained \$4,000 and escaped.

MORE MEN TO BORDER

War Department Orders Guards of Three States to Entrain.

Washington, Aug. 28.—National guards of Ohio, Kentucky and Vermont, now in mobilization camps, were today ordered to the Mexican border.

MUSTER OUT KANSANS

Fifty Guardsmen With Families Can Come Home.

Fifty Kansas National Guardsmen arrived at Fort Riley from the border today and will be mustered out at once, Adjutant General C. L. Mann announced this afternoon. The fifty men have families dependent upon them. Sergeant Ward of Topeka is included in the list.
